Mr. Goldring,

Thank you for the bursary I received in late November. The recognition means a good deal to me and I hope to continue my cadet career in a similar direction.

I am proud to be a cadet and will continue to work as hard. I plan to use the bursary towards supplies for post secondary education, likely in the field of space science. The award will encourage me to strive for higher goals in my future academic career.

Again, thank you for the award.

Sincerely,

Sebastian W. Brown
